

Green Wall

Rome

Our Rome range of beautiful, neat, lush and manageable artificial green wall or green roof panels have a mixture of different coloured foliage. Providing interest all year round. Each panel includes 5 hook & plug fixings with fixing instructions. Galvanised steel powder coated backing for long life. Panel dimensions are 85 centimetres x 85 centimetres (32 inch square) & weigh around 6kg when installed. UV stable - suitable for indoor or outdoor use. All panels fit together seamlessly to provide the instant wow factor. There is no limitation to their use.

Our panels are rigorously tested. Fire Retardant to BS 5852: 2006, Clause 12 Ignition source 0 & 1

We can Bespoke make your green wall to include flowers from any of signature panels.

We can also provide you with 3D images of how your green-wall will look before it's installed, get in touch with us for more information.

Please make sure to check the suitability of the wall or structure you want to hang these on, and for hidden cables or pipes before you buy.

If in doubt contact a structural engineer professional.

We can also visit your project to discuss your Superior Artificial Planting Solution needs. Please get in touch with us to discuss your requirements and for more information.

Our panels can be fully recycled when they are no longer required, get in contact with the team for more information.
